
12 ft/yr	Approximate direction of localized groundwater gradient and estimated average linear groundwater velocity during second quarter 2005
ft/yr	feet per year
(73)	Perchlorate concentration in groundwater during second quarter 2005 (µg/L)
6 µg/L	Approximate perchlorate iso-concentration contour (dashed where inferred)
(—)	Not Available
(<4.0)	Symbol indicates not detected at or above laboratory reporting limit as noted
µg/L	micrograms per liter

Unit 1 Perchlorate Iso-concentration Contour Map
Second Quarter 2005
