RESOLUTION NO. 81- 2

APPROVAL OF REVISION TO F.Y. 1980-81 208 PLANNING
PROJECT PROPOSALS

WHEREAS:

1. The State Water Resources Control Board at the request of the Environmental Protection Agency (EPA) submitted California's recommendation on the allocation of F.Y. 1980-81 208 funds (Phase IV) on September 10, 1980.
2. EPA tentatively approved the State Board's recommendations on October 16, 1980.
3. Since the State Board submittal and EPA approval, the Los Angeles County Sanitation District with the Southern California Association of Governments, State Department of Health Services, and State Board, Special Projects, have proposed an additional project.
4. The proposed project would provide the initial step towards implementation of much needed Class I hazardous waste disposal sites to serve Southern California.
5. Funds for the proposed project are available from a combination of 208 funds, Resource Conservation and Recovery Act funds and local funds.
6. The addition of this proposed project to the list of California's recommended F.Y. 1980-81 208 planning project proposals has been noticed and a public meeting held to receive comments.
7. The Board has reviewed the records and the staff recommendations and finds that the project is appropriate for addition to the F.Y. 1980-81 208 planning project proposals list.

THEREFORE BE IT RESOLVED:

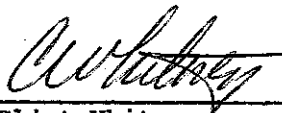

That the Board:

1. Approves the amendment of California's recommended F.Y. 1980-81 208 planning proposals to include a project for the "Initial Study: Southern California Segment State Hazardous Waste Siting Program", at a proposed cost of \$582,000.
2. Approves revising California's F.Y. 1980-81 208 planning project priorities to give the "Initial Study: Southern California Segment State Hazardous Waste Siting Program" 11(B) priority and Mining to be reassigned to 11(C) priority and Elkhorn Slough Watershed Management to be reassigned to 11(D) priority.

3. Authorizes the Executive Director to submit this proposal to EPA for approval.
