TO ALL CONCERNED PERSONS AND AGENCIES:

Enclosed is the proposed revised Order No. R5-2006-0090 (NPDES No. CA0085189) for the North Fresno Wastewater Treatment Facility. The Central Valley Regional Water Quality Control Board (Central Valley Water Board) will consider reopening Order No. R5-2006-0090 and adopting a revised Order No. R5-2006-0090 solely to include operational turbidity specifications consistent with the recycled water criteria in Title 22, CCR for both coagulated and uncoagulated wastewater. The proposed revised Order also includes changes where necessary to support the proposed revisions to the turbidity limitations and to correct copy errors that were transmitted in Order No. R5-2006-0090 in 2006. The revisions are shown in a strikeout/underline version of the proposed Order for your convenience.

Persons wishing to comment on the proposed Order shall submit testimony, evidence, and/or comments in writing to this office no later than by 5 p.m. on **5 November 2009**. Written materials shall be addressed to the attention of or emailed to Matt Scroggins (msscroggins@waterboards.ca.gov), and if emailed, a printed and signed copy must be mailed and postmarked by the final date. Written materials received after

The Central Valley Water Board has not reviewed or made any decision concerning the proposed Order, which may still be revised following the comment period. Revised documents along with comments and the staff responses will be posted on the above web site and placed in the meeting agenda. The Central Valley Water Board will consider these and any appropriate oral testimony at the scheduled public hearing. The Central Valley Water Board may elect to adopt an order that differs from the recommended Order and may do so without another public comment period if determined to be consistent with applicable laws and regulations.
