

CENTRAL VALLEY REGIONAL WATER QUALITY CONTROL BOARD

**DISCLOSURE FORM
EX PARTE COMMUNICATIONS REGARDING PENDING GENERAL ORDERS**

*Note: This form is intended to assist the public in providing the disclosure required by law. It is designed to document meetings and phone calls. Written communications may be disclosed by providing a complete copy of the written document, with attachments. Unless the board member(s) provided you with a different contact person, please send your materials to: Kiran.Lanfranchi-Rizzardi@waterboards.ca.gov
Use of this form is not mandatory.*

1. Pending General Order that the communication concerned: Oil Field 3 General Orders
2. Name, title and contact information of person completing this form:
Note: Contact information is not mandatory, but will allow the Water Board to assist you if additional information is required. If your contact information includes your personal residence address, personal telephone number or personal email address, please use a separate sheet of paper if you do not want that information posted on our website. However, this information may be provided to members of the public under the Public Records Act. Aghazeynali filed for Robert Gore, Water Issues Consultant, CIPA 916-441-1392
3. Date of meeting, phone call or other communication: 8/3/2016

Time: 9AM-10:20 AM

Location: Teleconference
4. Type of communication (written, oral or both): Oral
5. Names of all participants in the communication, including all board members who participated: See attached e-mail
6. Name of person(s) who initiated the communication: Robert Gore
7. Describe the communication and the content of the communication. *Include a brief list or summary of topics discussed at the meeting, any legal or policy positions advocated at the meeting, any factual matters discussed, and any other disclosure you believe relevant. The Office of Chief Counsel recommends that any persons requesting an ex parte meeting prepare an agenda to make it easier to document the discussion properly. Attach additional pages, if necessary.*

CIPA members and other participants expressed concerns about:
The DOC WST rule effectively banning produced water discharge to land from wells that have been stimulated at any time ever.
Monitoring and testing requirements being too frequent and too expensive.
Monitoring for all chemicals being needless, as DOC reporting encompasses this.
8. **Attach a copy of handouts, PowerPoint presentations and other materials any person used or distributed at the meeting. If you have electronic copies, please email them to facilitate web posting.**
