

**California Department of Public Health-Division of Drinking Water and Environmental Management**  
**Safe Drinking Water State Revolving Fund**  
**2010-2011 Fundable List-FINAL**

NOTE: The 2010-2011 Fundable List consists of existing applications from the Safe Drinking Water State Revolving Fund that may receive a funding agreement by June 30, 2011. The projects included in the Fundable List have been invited and submitted a SDWSRF application and are currently awaiting a funding agreement, pending a technical, environmental and/or financial review. The 2010-2011 Fundable List is also based upon pre-applications submitted in 2008 and prior. The Fundable List does not include pre-applications submitted in 2009 or pre-applications submitted for the American Recovery and Reinvestment Act. The Fundable List will be amended on a rotating basis to include additional projects that may receive a funding agreement by the end of fiscal year 2010-2011 and to remove projects that will not receive a funding agreement by June 30, 2011.

Please be advised that the Fundable List is different than the Invited List. The Invited List consists of pre-applications from the Project Priority List that have met a certain categorical ranking thereby making them eligible to submit an application for SDWSRF funding. The 2010-2011 Invited List is currently being developed by CDPH-DDWEM management and will be published soon.

<b>Estimated Planning (Tier-2) Projects</b>								
Lake Amador -Jackson Valley Irrigation District (JVID)	0300037	002p	stockton	C	\$195,000	2000		The Jackson Valley Irrigation District (JVID) a public entity, serves potable and irrigation water to customers in Amador County, specifically the lone / Jackson Valley area. Potable water customers / connections include the Lake Amador Recreation Area (
Fresno County Service Area-#30	1000019	002p	fresno	D	\$310,000	130		There are two problems with this water system.1. Primary source of water is surface water purchased from the Westlands Water District. If there is an interruption in delivery of this water or if the water treatment system fails, the backup source of water
Pershing High School	1000207	001p	fresno	F	\$298,000	56	X	School is supplied water from only one well. If the well fails, a new well would be needed.
FCSA # 32 Cantua Creek	1000359	003p	fresno	D	\$350,000	230		In the CDPH-DWP Annual Inspection Report for 2007, dated March 18, it was noted in item # 6 that when the CL2 pump air locks, the chlorine residual was low. On some days, it was too low to achieve disinfection. It was requested that equipment improve
Riverdale Public Utility District	1010028	002p	fresno	G	\$499,600	2416		PUD's existing three wells exceed revised (10 ug/L) Arsenic standard.
City of Huron	1010044	001p	fresno	I	\$500,000	7306		HIGH TURBIDITY LEVELS IN RAW WATER FROM THE CALIFORNIA AQUEDUCT HAVE RESULTED IN UNSCHEDULED SHUTDOWNS OF THE PLANTS FOR BACKWASHING OF THE FILTERS. PLANTS UNABLE TO CONSISTENTLY MEET THE CRYPTOSPORIDIUM ACTION
Garberville Sanitary District	1210008	006p	Klamath	D	\$444,250	400		The existing filtration capacity is insufficient to meet the Surface Water Treatment Regulation; no backup power to infiltration gallery or treatment plant
City of Trinidad	1210018	002p	Klamath	D	\$193,100	1500	X	Exceeding filter loading rates; Not meeting turbidity standards; Not meeting CT requirements; Not meeting disinfectant residual requirements; Exceeding DBP MCL's
EDGEMONT ACRES MUTUAL WATER COMPANY	1500290	005p	tehachapi	G	\$500,000	2000		Standby source unable to meet New EPA Arsenic and Uranium Standard of 10 ug/L
Kernvale MWC	1500364	001p	tehachapi	G	\$67,000	180		Arsenic in the system well is above EPA's revised MCL of 10 ug/L. Also uranium is above the state MCL of 20 pCi/L.

Funding Recipient	System No.	Project no.	District	Rank	Estimated Loan/Forgiveness of Principle	Population	Disadvantaged	Description
Fourth Street Water System	1500449	002p	tehachapi	G	\$108,000	190		Arsenic in source exceeds MCL.
WILLIAM FISHER MEMORIAL WATER COMPANY-Rosamond Project	1500455	001p	tehachapi	G	\$187,000	37		Arsenic in source water at 16 ug/L.
First Mutual WS-Rosamond Project	1502569	001p	tehachapi	G	\$500,000	40		Arsenic in source is above MCL.
Enos Lane PUD	1500544	003p	tehachapi	F	\$317,500	51		We have two systems wells. one of the wells exceed the nitrate MCL of 45 mg/L.
Semi Tropic School	1502244	002p	tehachapi	G	\$88,500	250	X	Source exceeds MCLs for antimony and for arsenic.
Quail Valley	1502724	001p	tehachapi	G	\$235,750	320		Source water exceeds MCL for arsenic.
RAND COMMUNITIES CWD - RANDBURG	1510016	004p	tehachapi	G	\$193,000	13296		Funding for arsenic treatment: Well #1.
ROSAMOND CSD	1510018	007p	tehachapi	G	\$700,000	12138		Longview, Rose Villa, AV Mobile Estates, Rosamond Mobile Home Park, & First Mutual all have single source wells with Arsenic > 10ppb. Rosamond Mobil Home Park has Uranium that exceeds 20 pCi/L from a single source well. All are located within the general
DESERT LAKE COMM SERV DIST	1510027	001p	tehachapi	G	\$400,800	344		Arsenic above the new EPA MCL
Vaughn WC INC	1510029	003p	visalia	G	\$248,570	10633		Nitrate and/or arsenic in wells of adjacent water systems
Pinon Pines	1510054	001p	tehachapi	G	\$359,000	600		Fluoride level in the newly developed well necessary to maintain increasing demand are above allowable MCL of 2 mg/L
Hardwick MWC	1600507	001p	visalia	G	\$223,100	740		Uranium above MCL
Armona	1610001	007p	visalia	G	\$500,000	66	X	Arsenic levels in excess of the MCL for drinking water.
Mitchells Avenue E MHP	1900785	004p	central	E	\$218,000	500		The Water System is in need of an additional water source to meet the demands of the community, i.e. new ground well. All details can be provided by the LPA - LA County Water Quality Program.

Funding Recipient	System No.	Project no.	District	Rank	Estimated Loan/Forgiveness of Principle	Population	Disadvantaged	Description
Leisure Lake Estates	1910066	002p	angeles	G	\$26,805	76		The system has three wells. Wells 2 and 3 have Arsenic levels exceeding the federal MCL. The Arsenic concentration in Well 1 is increasing. Well 1 and 2 are currently blended to produce water with 9 ug/l Arsenic. Well 3 is not in use for the domestic wate
Madera CMD #8A-North Fork	2000561	001p	merced	G	\$318,750	264		Well exceeds the revised arsenic MCL of 10 ppb.
Madera CMD # 1 - Hidden Lakes	2000544	001p	merced	D	\$130,000	27807		THE EXISTING WATER TREATMENT PLANT DOES NOT HAVE SUFFICIENT CAPACITY TO MEET THE SUMMER DEMANDS OF THE SYSTEM. AS A RESULT, THE STORAGE TANK HAS EMPTIED ON NUMEROUS OCCASIONS.
Madera CMD No. 6 - Lake Shore Park	2000550	001p	merced	G	\$231,250	1500		SYSTEM WELLS EXCEED THE ARSENIUM, URANIUM AND RADIUM MCLs.
Madera CMD No. 7 - Marina View Heights	2000551	002p	merced	G	\$231,250	180		SYSTEM WELLS EXCEED THE URANIUM MCL.
Madera CMD No. 24 - Teaford Meadows	2000552	001p	merced	G	\$463,500	45		Well No. 2 does not meet the revised arsenic MCL of 10 ppb.
Madera CMD No. 33- Fairmead	2000554	002p	merced	E	\$322,000	150		Water system is served by two groundwater sources. In 2008, water outages were reported on 1/10/2008, 4/18/2008 and 4/20/2008. System equipment deficiencies caused most of the outages. The system has a 10,000 gallon steel pressure tank but currently nc
Yosemite School	2000567	001p	merced	G	\$103,950	150	X	Water system has three wells, two are active and one is not connected to the system. The well is not connected to the systems because of high flouride levels. Uranium and arsenic, over the MCL, are also present in at least one of the wells. Quarterly
North Fork Union School	2000612	001p	merced	G	\$193,000	568	X	The North Fork School Water System is fed by two wells. Well #1 is 1200 ' deep with excellent water quality and a good test history. It alone would more than serve the potable needs of the school. It will not however serve both the potable and irrigator
Madera CMD 42-Still Meadows	2000737	001p	merced	G	\$80,000	100		Well exceeds the revised arsenic MCL of 10 ppb.
Nicasio School District	2100582	001p	sonoma	D	\$205,000	264	X	GWUDI source with unapproved SW treatment.
Santa Nella County Water District	2410018	001p	merced	G	\$415,000	100	X	The existing Water treatment plant is a package plant built in 1988 that has been evaluated by an engineering firm and determined to be at the end of its useful life and cannot be economically upgraded. Due to changes in raw water quality and regulations
IVERSON & JACKS APTS WS	2701068	002p	monterey	F	\$180,000	2000		Iverson & Jacks Apts Ws Problems: Continued contamination of Nitrates in water supply.Deemed unsafe for drinking and cooking testing at 74mg/LI tested on7/1/07 State drinking water limit 45mg/L
VIERRA MEADOWS MWC	2702003	002p	monterey	G	\$150,000	1500		Vierra Meadows Mutual Water Co. has 2 ground water wells. They are both contaminated with Arsenic, a primary constituent. They are also over the secondary MCL for Iron and Manganese. The Arsenic levels range up to 84 ug/l and fluctuate by the season. Iron

Funding Recipient	System No.	Project no.	District	Rank	Estimated Loan/Forgiveness of Principle	Population	Disadvantaged	Description
Seaside Municipal Water System	2710018	001p	monterey	E	\$841,500	50		Insufficient source capacity - water purchased through emergency connection.
Alpine Village	3301491	001p	riverside	E	\$253,300	50		We have a lot of dead end lines that run out of water when the rest of the system has water. Would like to lay pipe to loop the system and run electric to other wells and need new pumps. System has had numerous coliform failures.
St. Francis Retreat Center	3500537	001p	monterey	C	\$90,000	250		The primary well, and only well to remain in production through the year, was drilled in the 1960s and installed without an annular seal. Tests have revealed that the static water level in the well equates to the groundwater level of the adjacent pond.
Barton Flats Water Company	3601048	001p	san bernardino	E	\$319,300	260		Frequent water outages resulting from inadequate capacity of existing filtration system that can't run at higher rate to produce water.
East Valley Water District	3610064	003p	san bernardino	F	\$500,000	145	X	East Valley Water District (EVWD) currently has nine wells out of eleven in service that will exceed the future regulation of 6 ppb MCL for Perchlorate, and the detection level of 4 ppb. Three wells, plant 11, 12, and 28 draw water from the Bunker Hill Ba
Lake Morena Oak Shore MWC	3700923	001p	san diego	F	\$132,120	25		Nitrate MCL violations.
Stockton East Water District	3910006	002p	stockton	I	\$500,000	200		WHEN IT BECOMES NECESSARY TO TAKE FILTERS OUT OF SERVICE, FILTRATION RATE MUST EXCEED REGULATORY LIMITS TO MEET DEMANDS.
Redwood Terrace Mutual Water System	4100510	002p	santa clara	E	\$22,360	1266731		Redwood Terrace is under a Cease and Desist Order CDO ORDER WR 2008 - 0020 - EXEC and is mandated to have another water source in place by November 1, 2008 to serve 26 homes. We have developed 2 springs, which may not qualify as ground water and we wi
Cuyama CSD	4210009	002p	santa barbara	G	\$62,000	75		Water supply will not comply with proposed MCL for Arsenic if below 20 ppb.
Forest Lakes MWC	4410016	001p	monterey	E	\$500,000	25		Inadequate source capacity for hard rock well supply, end-of-life for piping, tanks and electrical, need meters
Lakeside Woods Mutual Water Company	4500013	001p	lassen	E	\$85,000	820	X	Insufficient source capacity resulting in water outages, failing mains, and no backup power.
City of Montague	4710007	002p	klamath	G	\$109,127	1145		Watershed subject to significant Cryptosporidium contamination hazards from cattle ranches and feed lots and therefore, required to have increased removal efficiencies to meet future microbial MCLs. Also water has high TOCs and taste/odor problems.
COUNTRY WESTERN MHP	5000080	001p	stockton	G	\$40,000	70		A June 11, 2008 letter from Stanislaus County Environmental Health states that the Country Western Mobile Home Park Water System has violated the Maximum Contaminant level for Arsenic of 10ug/L. Three samples were collected on 4/8/08, 1/2/08, and 10/16/0
Hughson, City of	5010008	002p	stockton	G	\$500,000	1495		well 6 arsenic exceeds 10 ppb

Funding Recipient	System No.	Project no.	District	Rank	Estimated Loan/Forgiveness of Principle	Population	Disadvantaged	Description
Mineral County Water District	5200503	004p	valley	D	\$114,500	135		We are looking at replacing our filtration system with one that will cost less to operate, produce cleaner water and will meet all of LTESWTR's rules. The system we have now cost us in June of 2007 ~ \$5,346.00 and the filtration plant produced 629,943 C
Plum Valley School	5200506	001p	valley	B	\$23,000	220	X	School water source vulnerable to contamination
Lewiston Valley Water Company	5301002	001p	klamath	D	\$70,000	40	X	Turbidity standard failures. Filter system is not an approved filtration technology.
North Kaweah MWC	5400506	004p	visalia	C	\$280,000	6082		Both North Kaweah Mutual Water Company and Tract 403 Water Company currently operate separate community water systems and both are out of compliance for the treatment of water under the influence of surface water. They both lack the filtration required to
DUCOR CSD	5400542	003p	visalia	E	\$128,406	109		SOUTH WELL Imminent Failure – Located on the corner of Ave 55 and Carlisle RoadThe old South Well is 21 years old and is running approximately 42% of its capacity. Recently, in June 2007, the well decreased its pumping capability to 50 gallons per mint
Tooleville	5400567	001p	visalia	F	\$408,000	80		Exceeds nitrate MCL.
