Date: Wednesday, October 07, 2015 8:18:58 PM

Dear Mr. Reed,

As Forestville homeowners we support the Hacienda Improvement Association commentary and recommendations on the North Coast Regional Water Board's TMDL. We have found this last decade difficult as Forestville homeowners with property values still below ten years ago, the drought and now implications the TMDL has on us.

We assume the board will seriously consider and take the analytical steps HIA recommends.

Sincerely,

Katharine Swan & Ronald Quidachay
