Carson, California
CAO No. R4-2011-046

NOTICE OF WORK

Upcoming Environmental Noise Monitoring

Consultants from PCR Services Corporation, under the direction of the Water Board, will be in and around the Carousel Tract neighborhood to conduct baseline environmental noise monitoring related to the preparation of an Environmental Impact Report (EIR) for the area.

The noise monitoring will include the placement of a microphone and data logger, similar to the picture below, on the property at 24628 Marbella Avenue, Carson, CA 90745, on or about April 1st. The device will remain in place for approximately three days, remotely recording normal ambient conditions.

In addition, technicians will be conducting short-term monitoring (15 minutes in duration), with hand held microphones, at up to six locations (i.e. public sidewalks) throughout the neighborhood and surrounding streets.

Sample Photo of Microphone and Data Logger

WHEN: The environmental noise monitoring will take place on or about April 1, 2014 and will take approximately three days.

WHERE: 24628 Marbella Avenue, Carson, CA 90745 and surrounding neighborhood in the Carousel Tract

CONTACT: If you would like more information, please contact Dr. Teklewold Ayalew, Project Manager: (213) 576-6739 (tayalew@waterboards.ca.gov) or Susana Lagudis, Public Participation Specialist at the Los Angeles Regional Water Quality Control Board: (213) 576-6694 (Susana.lagudis@waterboards.ca.gov)

You may also contact Heidi Rous, Director, PCR Services Corporation: (626) 204-6170

Thank you for your patience and cooperation
