

ITEM:

SUBJECT: Uncontested Waste Discharge Requirements for Confined Animal Facilities

REPORT: Following are proposed waste discharge requirements for confined animal facilities. All agencies and the dischargers concur or have offered no comments. Items indicated as updates on the summary agenda make the requirements consistent with current plans and policies of the Board.

	a.	<p>HENRY JONGSMA, DBA HENRY JONGSMA AND SON DAIRY, Glenn County</p> <p>Henry Jongsma has built and proposes to operate a new dairy on 979 acres in Glenn County, southeast of the city of Orland. The maximum herd size (Holsteins) at the dairy is 3,390: 1700 milking cows, 290 dry cows, 840 one-to-two year old heifers, and 560 three-to-twelve month calves. The dairy includes all new structures, including a milking parlor, freestall barns, loafing barns, corrals, manure storage and drying areas, lined settling ponds, a lined wastewater storage lagoon, and feed storage areas. Wastewater is land-applied to 711 of the 979 acres for agricultural production. Solid manure is hauled offsite to other farmers for use as fertilizer or used onsite as bedding.</p> <p>A Report of Waste Discharge dated 15 October 2004 was submitted for the proposed dairy, including a Nutrient Management Plan and portions of the Waste Management Plan. Additional information has been submitted to the Board subsequent to that date. An Environmental Impact Report was prepared for the project and was certified by the Glenn County Planning Commission on 12 February 2006.</p>
--	----	--

RECOMMENDATION: Adopt the proposed waste discharge requirements.
