NOTICE OF PUBLIC HEARING

concerning

RENEWAL OF WASTE DISCHARGE REQUIREMENTS

(NPDES NO. CA0085260)

For

IRONHOUSE SANITARY DISTRICT

WATER RECYCLING FACILITY

CONTRA COSTA COUNTY

FILE COPY

Ironhouse Sanitary District is the owner and operator of the Ironhouse Sanitary District, Water Recycling Facility (Facility), a publicly owned treatment works located at 450 Walnut Meadows Drive, Oakley, California. The Facility provides sewerage services for the City of Oakley, Bethel Island, and some unincorporated areas of Contra Costa County, serving a population of approximately 38,969. The Facility provides tertiary treatment for up to 4.3 million gallons per day (MGD). Tertiary treated wastewater from the Facility is discharged to the San Joaquin River, a water of the United States, within the Sacramento – San Joaquin Delta.

Discharges from the Facility are currently regulated by Waste Discharge Requirements Order R5-2008-0057, issued by the Central Valley Regional Water Quality Control Board (Central Valley Water Board) on 25 April 2008. An Order is proposed to renew the NPDES permit. The proposed NPDES permit renewal removes effluent limits for settleable solids, oil and grease, aluminum, copper, fluoride, lead, total residual chlorine, iron, manganese, and MBAS, because the upgraded Facility no longer demonstrates reasonable potential to cause or contribute to an exceedance of the applicable water quality objectives in the San Joaquin River. The proposed Order also includes new effluent limitations for methylmercury, diazinon, and chlorpyrifos. The Facility cannot immediately comply with the new effluent limits for methylmercury, so a compliance schedule is included in the proposed Order.

A public hearing concerning this matter will be held during the Central Valley Water Board meeting scheduled for:
