

ERRATA SHEET No. 2

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
 SAN DIEGO REGION**

TENTATIVE ORDER No. R9-2015-0104

**MASTER RECYCLING PERMIT FOR THE VALLEY CENTER MUNICIPAL WATER
 DISTRICT WOODS VALLEY RANCH WATER RECLAMATION FACILITY,
 SAN DIEGO COUNTY**

The following revisions are proposed for Tentative Order No. R9-2015-0104. The changes are shown in the table below in underline format to indicate added language. The added language provides the findings the San Diego Water Board is required to make as a responsible agency under CEQA.

Errata No.	Section	Revision
1	Finding H	<p>H. California Environmental Quality Act. The VCMWD is functioning as the lead agency under the California Environmental Quality Act (CEQA). VCMWD prepared a Final Environmental Impact Report titled, <i>South Village Water Reclamation Project</i>, (State Clearinghouse #2007101049) dated April 7, 2008 and subsequent Addenda Nos. 1 and 2 to the Final EIR dated January 20, 2011 and January 25, 2013 respectively. The two Addenda were prepared to address proposed changes in facilities sites, wastewater flows, and the WVRWRF service area. A Mitigated Negative Declaration dated January 7, 2015 was prepared to assess potential environmental impacts from the North Village portion of the WVRWRF sewer service area. The Mitigated Negative Declaration concludes that the project will have less than significant impacts on water quality.</p> <p><u>The San Diego Water Board is a responsible agency under CEQA. As such, the Board considered the EIR and addenda, and the Mitigated Negative Declaration, and the project's environmental effects as described in those documents. The San Diego Water Board concurs the project will have less than significant impacts on matters within the Board's jurisdiction.</u></p>
