

# Notice of Dredge or Fill Discharge Applications received from 10/31/2015

Report Generated On: 12/31/2015

File Number	Project Name	County	City	Brief Description	Applicant Organization	Agent Organization	Staff
302015-23	Fullerton Creek Channel Improvements - Beach Blvd to Dale St	Orange	Buena Park	Activities: The project consists of the removal of the existing concrete and the construction of a rectangular concrete-lined channel. The channel would measure 31 to 37.5 feet in width and be about 14 to 17.5 feet deep. The newly constructed channel would be several feet deeper than the existing trapezoidal shaped channel. The channel under these bridges will be re-constructed from trapezoidal to vertical wall.	Orange County Public Works		MKB
302015-24	Grand Canal Maintenance Dredging & Sewall Augmentation Support	Orange	Newport Beach	Purpose: The City is proposing a five-year annual maintenance dredging and sediment sidecasting program within the Grand Canal. This maintenance program would entail dredging up to 5,000 cubic yards per year along the center of the canal to a maximum depth of -2.0 feet MLL W to maintain navigation. The dredged material would be placed at the same elevation along the seawalls as the imported sand placed in the emergency action. Note: RGP 63 project	City of Newport Beach		MKB
302015-25	Admiralty Drive Bridge Rehabilitation over Queen Elizabeth Passage	Orange	Huntington Beach	Purpose: The project consists of three project elements: removal and replacement of the concrete barriers, sidewalks, and bridge deck; cleaning and painting of the I-girders and other steel members; and removal and replacement of unsound concrete on one exterior column on the south side of the bridge. The project would be completed in two phases.	City of Huntington Beach	GPA Consulting	MKB
302015-26	Humboldt Drive Bridge Rehabilitation ove Short Channel	Orange	Huntington Beach	The project would include rehabilitating and widening the bridge in order to provide the required roadway width and provide standard sidewalks on the bridge. Rehabilitation and widening of the bridge would include: a) removal and replacement of the concrete barriers, sidewalks, and bridge deck; b) cleaning and painting the steel I-girders and other steel members; and c) removal and replacement of unsound concrete at the bridge piers.	City of Huntington Beach	GPA Consulting	MKB
332015-28	Kaiser Permanente Murrieta Medical Center	Riverside	Murrieta	Purpose: Development of an approximate 824,500 square foot multiphased medical center. Phase I will include a 80,000-square foot outpatient medical office building with 473 surface parking spaces. Proposed impacts to waters would occur during phase I of the project. Frankish, Basin No 1 (NE of West 26th @ Holly)	Kasier Foundation	Dudek	CJB

362015-67	Brooks Basin - West State Street Storm Drain Inlet Improvement	San Bernardino	Montclair	Purpose: Repair and improve storm water diversion inlet into Brooks Basin Activities: Remove and replace portion of existing concrete lined channel section within a storm drain canal.	Chino Basin Water conservation District	Wagner & Bonsignore CCE	CJB
362015-68	Monte Vista Avenue Grade Separation at Union Pacific Railroad Crossing	San Bernardino		Purpose: elevate Monte Vista Avenue over the railroad tracks and State Street. Activities: Grade separate the existing Monte Avenue/Union Pacific Railroad at-grade railroad crossing.	City of Montclair	ICF International	CJB
362015-69	Ontario Airport Distribution Center & Outfall to Cucamonga Channel	San Bernardino	Ontario	Purpose: A storm drain connection to the Cucamonga Channel is needed to handle the on-site drainage from the proposed project. Activities: The proposed project consists of a Development Plan to construct a 102,440 square foot industrial building intended for future occupancy by a warehouse or distribution tenant. In addition to the building, the proposed project includes the construction of a 0.15-acre detention basin in the southeast corner of the site. The detention basin will capture all site runoff and discharge via a proposed 24 inch storm drain pipe to the Cucamonga Channel to the east of the project site. Construction for this improvement involves trenching an area from the project site across the asphalt access road to the east and cutting an opening into the side of the channel wall	Newcastle Partners	Kimley-Horn and Associates, Inc.	CJB
362015-70	Planning Area 4 of the Meredith International Centre Specific Plan	San Bernardino	Ontario	Purpose: Develop urban residential land uses within planning area 4.	Palmer Ontario Properties, LP	Michael baker International	CJB
