

Notice of Dredge or Fill Discharge Applications received from 3/1/2016

Report Generated On: 5/1/2016

File Number	Project Name	County	City	Brief Description	Applicant Organization	Agent Organization	Staff
302016-08	Lane Channel Slope Restoration	Orange	Irvine	Purpose: To repair the slopes of the channel , re-establish the original channel cross section, and increase the habitat function	Orange County Public Works	Orange County Public Works	MKB
302016-09	Bayview Hieghts Drainage Restoration	Orange	Newport Beach	Purpose: To reduce and treat nuisance water flows and sediment discharged from East Santa Ana Heights to Upper Newport Bay.	City of Newport Beach	Michael Baker International	MKB
302016-10	Portofino Cove Marina Maintenance Dredging	Orange	Huntington Beach	Purpose: Restore designed navigational depths. Activities: The proposed project involves dredging all slips and fairways within the Portofino Cove Marina to the design elevation of -7 feet MLLW, plus 1 foot of allowable overdepth. It also includes dredging a small area (approximately 3,800 square feet) outside of the marina lease area between Dock C and the Main Channel of Huntington Harbour.	Portofino Cove Yacht Homeowners Association	Anchor QEA, LLC	MKB
302016-11	San Joaquin Channel Repair and Restoration	Orange	Irvine	Purpose: To repair the slopes of the channel and re-establish the as-built channel cross section Activities: The proposed project is to conduct channel maintenance within two reaches of San Joaquin Channel. The project consists of re-grading approximately 3,490 linear feet of channel invert (2,985 linear feet of channel invert in the lower reach and 505 linear feet within the upper reach basin) and side slopes with earthen material. Small amounts of riprap will be replaced in kind. Most of the existing rock on the slopes will be removed and not replaced. The concrete transition structure upstream of Harvard Ave will be reconstructed to match the proposed invert elevation. There will be no increase in the area that is currently concrete lined.	Orange County Public Works		MKB
302016-12	Central Ave Public Dock Installation Project	Orange	Newport Beach	Purpose: Provide a public tie-up facility for visiting boats. Activities: Construction of a new public dock.	City of Newport Beach, Harbor Resources Division	Moffat & Nichol	MKB
332016-12	Citron Townhomes	Riverside	Corona	Purpose: Storm water quality management Activities: Construct new storm drain outfall structure.	Harrington Village, LLC	VCS Environmental	CJB
332016-13	Knowleton Communities TTM 33135	Riverside	Corona	Purpose: Provide access and infrastructure for a 63-unit, single-family development in the city of Corona. Activities: The Project is limited to the construction of 63 single-family units and associated roadways and infrastructure. Two arched culvert road crossings and four storms drain outlets, all with grouted riprap energy dissipation structures, will be constructed within Tin Mine Canyon Creek, and the south bank outside Waters of the U.S. will be fortified with soil cement. In Hagador Canyon Creek, an existing concrete Arizona crossing will be improved, a temporary access road will be constructed as a haul road, and two storm drain outlets will be installed. Project activities include the one-time removal of invasive species, trash, and debris from Hagador Canyon and Tin Mine Canyon Creeks, and the repair of an existing damaged drop structure in Hagador Canyon Creek. Two unnamed drainages draining from the Cleveland National Forest will be graded and will outfall into debris basins located along the southern edge of the site, and one unnamed drainage will be impacted to complete on-site service road improvements.	Knowleton Communities, Inc.	VCS Environmental	CJB
332016-14	Perris Valley Channel Lateral B-5 to Lateral B Connection	Riverside	Perris	Purpose: Connect Lateral 8-5 storm drain pipe to Lateral 8, Perris Valley Channel , as part of master drainage plan. Activities: Remove portion of existing concrete bank/bottom. excavate. install pipe. and reconstruct concrete bank/bottom.	Industrial Property Trust	Albert A. Webb Associates	
332016-15	Riverpark Mitigation Bank Project	Riverside	Perris	Purpose: Creation of mitigation bank. Activities: Grading necessary to restore hydrology to the San Jacinto River.	Hillcrest Homes, Inc.	Sweetwater Environmental Biologists, Inc.	CJB

File Number	Project Name	County	City	Brief Description	Applicant Organization	Agent Organization	Staff
332016-16	Prologis Eucalyptus Industrial Park	Riverside	Moreno Valley	Purpose: to provide a new facility that specializes in warehouse distribution services. Activities: Four water quality basins (detention basins) will be developed as part of the proposed project. Storm water runoff would be routed to the detention basins prior to reaching Quincy Channel via two outlets.	Prologis Local Partner to Global Trade	ICF International	CJB
362016-05	Yucaipa Wildwood Creek Protection Project	San Bernardino	Yucaipa	Purpose: Prevent further erosion and possible undermining of Wildwood Canyon Rd. along a section of Wildwood Creek. Activities: Bank Stabilization: Excavating along the base of the slope for rock footing then extending the rock up to the top of slope (road).	City of Yucaipa Department of Public Works	Ruth Villalobos and Associates, Inc.	CJB
362016-09	SoCal Edison Falcon Ridge Substation	San Bernardino	Rancho Cucamonga	Purpose: To improve the reliability and system operational flexibility of the existing electrical system serving the portions of the cities of Rancho Cucamonga, Fontana, and Rialto, as well as adjacent areas of San Bernardino County.	Southern California Edison	Southern California Edison	CJB
362016-10	Santa Anita Avenue Project	Riverside	Rancho Cucamonga	Purpose: Construct one (1) commercial/industrial warehouse of approx. 328,000 square feet.	CRP Oakmont Santa Anita, LLC	Salix Consulting, Inc.	CJB
362016-11	IEUA Groundwater Recharge Basin Operations and Maintenance	San Bernardino		Purpose: Maintain basins for groundwater recharge Activities: Debris/vegetation removal, structure repair/preservation, groundwater testing.	Inland Empire Utilities Agency		CJB
362016-12	5th Street Widening	San Bernardino	Yucaipa	Purpose: to improve the Chicken Springs Wash channel and to provide gutter, curb, sidewalk, and associated street improvements along 5th Street. Activities: constructed in two phases; first phase would involve street widening of 5th Place and the second phase would involve drainage improvements within Chicken Springs wash. The drainage improvements would consist of removing the existing 48-inch pipe under 5th Street and replace it with two 60-inch pipes with retaining walls to accommodate drainage flow. The proposed channel improvements include wing walls, transition structures, channel lining, rip-rap slope protection and scour protection structures. The proposed project will also include minor operation and maintenance activities including substructure and rip-rap maintenance and sediment, debris, and woody vegetation removal as needed.	City of Yucaipa	RVA	CJB
362016-13	Enhanced Recharge Phase 1	San Bernardino	Highland	Purpose: Phase 1 of the project includes intake improvements, a sedimentation basin, and a new pipeline that will connect to the existing Foothill Pipeline. Activities: The project will include a sandbox diversion/inlet structure re-design, a sedimentation basin re-design, addition of a plunge pool pipeline, an outlet structure re-design, addition of a new WCD channel, and new access roads.	San Bernardino Valley Municipal Water District	San Bernardino Municipal Water District	CJB
