RE: Comments on the April 30, 2009 20X2020 Water Conservation Plan Draft

Dear 20X2020 Agency Team,

On behalf of Ewing Irrigation Products, I would like to acknowledge my support for the comments that were submitted by the California Landscape Contractors Association.

I can't emphasize enough the importance of weather-based water budgeting as the best means towards reducing landscape water use along with conservation rate structures.

Sincerely,

*Warren S. Gorowitz*
