400 P STREET, 4TH FLOOR  
P.O. BOX 806  
SACRAMENTO, CA 95812-0806

## M E M O R A N D U M

TO: Facilities Subject to Corrective Action

FROM: Jesse R. Huff  
Director

Walt Pettit  
Executive Director  
State Water Resources Control Board

DATE:

SUBJECT: DESIGNATION OF EITHER THE DEPARTMENT OF TOXIC  
SUBSTANCES CONTROL (DTSC) OR THE STATE WATER RESOURCES  
CONTROL BOARD/REGIONAL WATER QUALITY CONTROL BOARD  
(SWRCB/RWQCB) TO PROVIDE OVERSIGHT OF CORRECTIVE ACTION

---

This is to inform you of the designation made by DTSC and SWRCB/RWQCB regarding the sole agency that will (1) continue oversight of Corrective Action at your facility if your facility is currently undergoing Corrective Action, or (2) to provide oversight of Corrective Action at your facility should there be a release of hazardous waste or hazardous substances. The RWQCB has been designated as the agency to oversee Corrective Action at your facility. Facilities should not be alarmed that, just because their name appears on this list, they are going to have to conduct Corrective Action. This list is made up of those facilities that are subject to Corrective Action, not that need Corrective Action.

Senate Bill (SB) 1082 (Calderon, 1993) requires that a process be developed that designates either DTSC or a RWQCB be responsible for cleanup oversight of a release of hazardous substances at certain treatment, storage, and disposal facilities. Enclosed is a copy of the Framework that was developed to accomplish this. Included with the Framework is a list of treatment, storage, and disposal facilities subject to Corrective Action. DTSC and the SWRCB/RWQCB went through the list of facilities currently undergoing Corrective Action under the supervision of the RWQCB and/or DTSC and made a decision regarding which agency should continue oversight of Corrective Action based on factors such as (1) the agency that had the greater oversight role in the past, (2) regulatory status, and (3) the nature of the release. DTSC will provide oversight of

Facilities Subject to Corrective Action

Page 2

any Corrective Action identified in the future at sites where there is no ongoing Corrective Action currently in process.

Site owners or operators that do not agree with the decision made by the two agencies must submit a written request for appeal to the Secretary for Environmental Protection, California Environmental Protection Agency (Cal/EPA) no later than April 30, 1996, by contacting Ms. Roberta James of Cal/EPA at (916) 322-7313. Any such request shall be reviewed by the Site Designation Committee established pursuant to Chapter 6.65 of the Health and Safety Code, in accordance with the procedure established for the implementation of that Chapter and using the relevant factors of Health and Safety Code section 25262.

Other provisions of SB 1082, which eliminate duplication between DTSC and the RWQCBs discussed in the Framework that may affect your facility are:

- (1) The RWQCB will be responsible for developing waste discharge requirements that are to be incorporated into DTSC's hazardous waste facility permit.
- (2) DTSC will be responsible for issuing hazardous waste facility permits, incorporating the RWQCBs' waste discharge requirements by reference. DTSC will enforce the hazardous waste facility permit, including the waste discharge requirements.

If you have any questions about the designation or the Framework, please call Mr. Watson Gin, Chief, Permitting Division, DTSC at (916) 322-0349 or Mr. Harry Schueller, Chief, Division of Clean Water Programs, SWRCB at (916) 227-4428.

Enclosure
