**Subject:** We need water grow our food

State water board,

**Please do not increase unimpaired flows on the Stanislaus River.** This area is a big part of the world's food growers and to lose that is to help quicken the starvation of the people and cause a loss in jobs that are needed to work the farms and the ranches. I say do not take water away from them, meaning you're taking it away from all of us. Bad, bad, bad idea. Just say NO !!!!!

Thanks for listening.

Ann Hunt
