Subject: No more water to SoCal

Water board members,

I am opposed to increasing unimpaired flows in the Stanislaus River as well as the Twin Tunnels project in order to save the fish populations and water for our local farmers. We do more than our fair share of conservation throughout the year here in MY town.....having the most strict fine areas in the state as people in the valley areas "let it flow." Please save our water for us, NOT So. Cal.

Thank you.
