

**Part 2 Attachment B:  
SUPPLEMENTAL NOTICE OF INTENT TO APPEAR**

**CALIFORNIA WATERFIX CHANGE PETITION HEARING**

Part 2 of the Public Hearing is scheduled to commence on **January 18, 2018**

Parties identified on the second page of this form have stated their intent to present direct testimony and call witnesses in Part 2 of the above hearing. **Only** those parties are required to fill out this form. Complete forms shall be submitted to [CWFhearing@waterboards.ca.gov](mailto:CWFhearing@waterboards.ca.gov) and copied to the current [Service List](#) no later than **noon on September 22, 2017**. Failure to complete and submit this form by the deadline may be construed as intent not to present witnesses in Part 2 of the hearing.

San Juan Water District plans to participate in **Part 2** of the water right hearing:  
(name of party)

**Check the applicable box(es) below. Be sure to accurately describe your participation in Part 2.**

I/we still intend to present direct testimony in Part 2 of the hearing and plan to call the following witnesses to testify:

| NAME OF WITNESS                               | SUBJECT OF PROPOSED TESTIMONY<br>(Please provide a brief description of each witness' proposed testimony) | ESTIMATED LENGTH OF DIRECT TESTIMONY | EXPERT WITNESS (YES/NO) |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------|--------------------------------------|-------------------------|
| Tom Gohring, Water Forum                      | Water Forum, FMS, American River environment, MFMS                                                        | 20 min.                              | YES                     |
| Jeff Weaver, HDR                              | Lower American River hydrology, modeling, MFMS                                                            | 20 min                               | YES                     |
| Craig Addley, Cardno                          | American River hydrology, modeling, water temperatures, supply, habitat, MFMS                             | 20 min                               | YES                     |
| Chris Hammersmark CBEC                        | American River hydrology, modeling, MFMS, habitat                                                         | 10 min                               | YES                     |
| Paul Bratovich, HDR                           | American River environment, species, habitat, MFMS                                                        | 20 min                               | YES                     |
| Vanessa Martinez, Cardno                      | American River hydrology, water temperatures, MFMS                                                        | 10 min                               | YES                     |
| Jeff Meyer, ECORP                             | Upper American River hydrology and hydraulic modeling, MFMS                                               | 10 min                               | YES                     |
| Marc Van Camp, MBK Engineers                  | Hydrology and Hydrologic Modeling                                                                         | 30 min.                              | YES                     |
| Walter Bourez, MBK Engineers                  | Hydrology and Hydrologic Modeling                                                                         | 30 min.                              | YES                     |
| Dan Easton, MBK Engineers                     | Hydrology and Hydrologic Modeling                                                                         | 30 min.                              | YES                     |
| Shankar Parvathinathan, MBK Engineers         | Hydrology and Hydrologic Modeling                                                                         | 20 min.                              | YES                     |
| Dave Vogel, Natural Resource Scientists, Inc. | Effects of Proposed Changes on Fishery Resources                                                          | 30 min.                              | YES                     |
| Robert A. Latour                              | Effects of Proposed Changes on Fishery Resources                                                          | 30 min.                              | YES                     |

\*\*San Juan Water District also reserves the right to rely on the testimony of witnesses presented by other parties, and any other appropriate evidence in the record  
(If more space is required, please attach additional pages.)

I/we no longer intend to present direct testimony in Part 2 of the hearing and intend to participate by:

- a) cross-examination and/or rebuttal only and may present an opening or policy statement.
- b) presenting a policy statement only (I/we no longer intend to present evidence or participate in cross-examination and/or rebuttal)
- I/we no longer intend to participate in Part 2 of the hearing:
