California Water Research,

as well as the Department of Water Resources' Response to Restore the Delta's
Objections to Evidence and Witnesses, and Joinder in Objections filed by CSPA et al.

On July 22, 2016, the Hearing Officers ruled that it is not necessary to rule on the evidentiary objections at this time and that such objections may be addressed orally during the course of the hearing, or in the final order taking action on the petition. Therefore, to the extent that any party has raised specific objections to Reclamation's witnesses and exhibits which are not specifically responded to in DWR's individual responses, Reclamation hereby reserves the right to respond to those specific objections at a later time. However, Reclamation notes that the same legal arguments have been made against its witnesses as DWR's, and that the same responses would apply individually to Reclamation witnesses.

Respectfully submitted on this 27th day of July, 2016.
