Subject: Emergency regulations for Russian River watershed

I was dismayed to learn that there is a hearing tomorrow to regulate residential water use. We, as Sonoma County property owners, did not receive such a letter. I think it is outrageous that the state wants to regulate our water use, and not that of the vineyard down the road. We're just waiting for them to suck our well dry. Such a meeting should be held in Sonoma County, where the Russian River actually is.

Sincerely, Gail Castellini
