TO WHOM IT MAY CONCERN

I TOOK A RADIATOR OUT OF A SUV ABOUT A MONTH AGO. THERE WAS 374 GALLONS OF COOLANT THAT SPILED OUT ON THE GROUND. MY CONCERN IS NOT ONLY IS IT GETTING INTO OUR WATER TABLE, HUNDREDS OF BILLIONS OF GALLONS IS WASHING INTO OUR STREAM RIVERS LAKE'S AND OCEAN'S. IF IT WILL KILL YOUR DOGS & CATS. WHAT IS IT DOING TO EVERY THING THAT LIVES IN AND DRINKS WATER? THE GROUND UNDER EACH & EVERY DISMANTLER YARD. IS CONTAMINATED. WHO KNOWS HOW FAR DOWN? THEN THERE IS THE AIR CONDITIONER WHICH CONTAINS 2-TO 3 LBS. OF R12 & R134 THAT IS RELEASED INTO THE AIR. DEPLETING OUR OZONE. PLEASE LOOK INTO AND ADDRESS THIS ISSUE. THANK YOU.

YOURS TRULY

P.S.

I HAVE NEVER SEEN A RECOVERY SYSTEM FOR ANY OF THESE PRODUCTS.
