This letter is in response to a request from Mr. Pete Scala to Mr. Keith Dick that the Department of Water Resources provide the assistance referenced in the attached letter, dated October 6, 2000 from the State Water Resources Control Board. As you are aware, the Shasta River is under State watermaster service. The water rights designated by Permits 19163, 19164, and 19165 are subject to distribution by DWR; therefore, the watermaster will make flow measurements and keep the appropriate records during the watermaster season.

If you should need further assistance, please contact me at (530) 529-7369.

Sincerely,

Kayl G. Echols, Chief
Watermaster Service Section
