Application 5170

Mr. Thomas R. King  
Engineer-Manager  
Washoe County Water Conservation District  
Title Insurance Building  
Reno, Nevada

Dear Mr. King:

This will acknowledge receipt of your letter of September 5th relative to the above numbered application and the visit of Mr. George Devore to this office. The conversation had with Mr. Devore was of an informal nature and the Division will require something in a more concrete form for the purpose of the record. It is, therefore, requested that you reply somewhat in detail the reasons why an indefinite extension is necessary before perfecting application 5170. Present information before this office would seem to indicate that the application could at least be perfected in engineering detail without an undue amount of labor, expense or time. A further extension of 30 days is allowed to furnish the requested information.

Very truly yours,

HAROLD CORLING  
Deputy in Charge of Water Rights

HSE:RH

H.S.E.
