Gentlemen:

In regard to your inquiry of April 30, 1946 concerning the location of the intake of the point of re-diversion of No. 11, I wish to state that its correct location is within the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 19, T. 19 N., R. 19 E., M.D.B. & M. It has been ascertained that these sections are very irregular and that the North line between Section 18 & 19 of the above mention Township and Range is short of a true mile and bears approximately North 87° West thus accounting for actual location of said rediversion location point.

I remain Trusting that this explanation proves satisfactory,

Very truly yours,

John D. Franklin
JOHN D. FRANKLIN
ENGINEER-MANAGER.
