## State Water Resources Control Board

### Soliciting Comments on Draft Sensitivity Analysis Approach Memo for the Development of the Groundwater-Surface Water Model of the Ventura River Watershed

The State Water Resources Control Board (State Water Board) is soliciting technical comments on its ***Draft Sensitivity Analysis Approach Memo for the Development of the Groundwater-Surface Water Model of the Ventura River Watershed*** (Draft GSFLOW Sensitivity Analysis Approach Memo)<sup>1</sup>. The Draft GSFLOW Sensitivity Analysis Approach Memo identifies the methodology that will be used to conduct a sensitivity analysis of the Ventura River Watershed groundwater-surface water modeling tool under development by the State Water Board and Los Angeles Regional Water Quality Control Board (Water Boards). **Technical comments on the Draft GSFLOW Sensitivity Analysis Approach Memo are due by 5:00 pm on November 16, 2020.** Please email comments to [InstreamFlows@waterboards.ca.gov](mailto:InstreamFlows@waterboards.ca.gov).

Additional information on the above-referenced modeling tool is available in the ***Final Study Plan***<sup>2</sup>, ***Geologic Analysis***<sup>3</sup>, and ***Draft Data Compilation Report***<sup>4</sup>.

If you would like to receive emails regarding the Water Boards' model development and related California Water Action Plan efforts, please subscribe to the "*California Water Action Plan/Statewide Instream Flows*" list under the Division of Water Rights on the State Water Board's [Email Subscription List](#) webpage, which is online at: [http://www.waterboards.ca.gov/resources/email\\_subscriptions/swrcb\\_subscribe.shtml](http://www.waterboards.ca.gov/resources/email_subscriptions/swrcb_subscribe.shtml).
